# Balance Your **KINDERGARTENER's** Year in an Inspiring Environment!

## THE PROJECT APPROACH

### Curriculum

Each month, in a democratic process, children choose one topic. Study ideas are child-originated and teacher-framed.

Students explore the theme by fact-gathering, hands-on activities, creative drama, art and vocabulary-building activities, and encounters with expert guests.

### Benefits

Children learn in different ways but all can achieve in school, if they are interested in what they are doing.

Small-group environment of the KiDiMu Enrichment Camps provides a wide variety of learning opportunities, and fosters natural curiosity.
